TWENTY-THIRD ANNUAL REPORT

OF THE

TRADE AND COMMERCE

OF

CHICAGO,

FOR THE

YEAR ENDING DECEMBER 31, 1880.

COMPILED FOR THE

BOARD OF TRADE,

BY

CHARLES RANDOLPH,

SECRETARY.

CHICAGO:
KNIGHT & LEONARD, PRINTERS.
1881.

INDEX.

Officers of the Board of Trade for 1880	vi
Officers of the Board of Trade for 1881	vii
Secretary's Annual Review	ix-xxi
Annual Report of the Board of Directors	xxii-xxiv
General Statistical Statements	1
Population Statistics (census of 1880) United States, by States.....	2
Population of Illinois, Chicago and Cook County	2
Exports and Imports of the United States for a series of years (Values)...	8
Domestic Exports of the United States (detailed) for the Fiscal Years 1870, 1879 and 1880	4
Imports of the United States (detailed) for the Fiscal Years 1870, 1879 and 1880	5, 6
Exports of Breadstuffs to Europe since 1846 (Quantities).....	7
Total Exports of Flour and Grain for six years.....	7
Exports of Beef, Hog Product, Butter and Cheese, with its distribution by countries, in 1879-80.....	8
Exports of Flour, Wheat and Corn (weekly) from the principal Atlantic ports, with its general distribution, in 1880	9-11
Exports of Flour, Wheat and Corn (weekly) from the principal Atlantic ports to Europe in 1880.....	12
Exports of Hog Product (weekly) from the principal Atlantic ports in 1880	13
Acreage, Product and Home Value of the principal Grain Crops of the United States in 1879 and 1880 (detailed), and aggregates of previous years,—United States Agricultural Department Report	14-17
Statement exhibiting the Nationality of Vessels engaged in the Foreign Commerce of the United States since 1860	18
Statement exhibiting the Shipments of Flour and Grain from the principal Western Lake and River ports yearly, 1875 to 1879 inclusive.....	19
Public Debt of the United States, annually since 1790.....	20
Detailed Statement of the Public Debt, December 31, 1880.....	21
Valuations of Property and Debt of Illinois	22
Valuations of Property, Taxation and Debt of Chicago.....	23
Acreage and Product of Wheat, Corn and Oats in Illinois in 1880, by Counties	24, 25
Acres under cultivation in Illinois yearly since 1858	26
Weights of the Bushels, as established by law, in Illinois.....	26
Statistics of the Manufacturing Industries of Chicago in 1880 (United States census)	27-29
Statistics of the Earnings and Expenses of the Illinois and Michigan Canal and Illinois River Improvements.....	30
Statistics of the Earnings and Tax of the Illinois Central Railroad.....	31

Pork Packing in the Mississippi Valley for five years, with the number of Hogs packed at the principal points	32, 33
Pork Packing of the Mississippi Valley for a series of years, November 1 to February 28	34
Summer Packing of the West, eight years	34
Comparative Statement of the last ten packing seasons	34
Statistics of the Live Stock Movement and of the Packing Business of Chicago for twenty years	35
Detailed Statement of the Pork Packing at Chicago, season of 1879-80, and aggregates of previous years	36, 37
Semi-Monthly Prices of Mess Pork in Chicago for nine years	38
Semi-Monthly Prices for Prime Steam Lard in Chicago for nine years.....	39
✓ Semi-Monthly Prices for Flour, Wheat, Corn and Oats in Chicago for seven years	40, 41
Receipts of Flour and Grain at Chicago for a series of years	42
Receipts of Wheat at Chicago from twenty crops	42
Shipments of Flour and Grain from Chicago for a series of years.....	43
Receipts and Shipments of sundry leading Articles of Commerce at Chicago for a series of years	44, 45
Rules Governing the Inspection of Flour at Chicago	46-48
Rules Governing the Inspection of Grain at Chicago.....	49-51
Rates of Inspection	52
Rates of Commission and Weighing Charges	53
London and Liverpool Quotations for Wheat and Corn, and Weekly Imports of same into the United Kingdom in 1880.....	54, 55
Flour Manufactured in Chicago for five years.....	56
Monthly Stocks of Flour in Chicago for five years.....	56
Visible Supply of Grain (weekly) during 1880	57
Detailed Annual Statistics of Chicago for 1880.....	59
Value of Duty-Paying Goods Imported during the year, and Duties on same	60
Detailed Statement of Goods, and quantities of each, Imported in 1880...	61
Duties Collected on Imported Goods for five years, by months.....	62
Value of and Duty on Imported Goods Warehoused, by months	62
Internal Revenue Collections, Detailed Statement by months	63
Clearing-House Statement by months, five years.....	63
Direct Exports of Produce to Europe	64, 65
Freight Rates from Chicago to Europe.....	65
Exports of Produce to Canada, by Lake.....	66
Weekly Receipts of Flour and Grain	67
Weekly Shipments of Flour and Grain	68
Weekly Stocks of Flour and Grain	69
All-Rail Through Business in Flour and Grain	70, 71
Elevator Capacity for Grain Storage	72
Elevator Rates for Grain Storage.....	72
Inspections of Grain	73
Receipts and Shipments of Several Commodities, by routes.....	74
Statement showing the Entire Movement of Flour and Grain by routes...	75
Monthly Receipts and Shipments of Flour	76
Weekly Prices for Flour.....	77

Monthly Receipts and Shipments of Wheat.....	78
✓ Weekly Prices for Wheat	79
Monthly Receipts and Shipments of Corn	80
✓ Weekly Prices for Corn and Oats.....	81
Monthly Receipts and Shipments of Oats	82
Monthly Receipts and Shipments of Rye.....	83
✓ Weekly Prices for Rye and Barley.....	84
Monthly Receipts and Shipments of Barley	85
Monthly Receipts and Shipments of Cattle	86
Monthly Receipts and Shipments of Sheep.....	87
Monthly Receipts and Shipments of Hogs.....	88, 89
✓ Weekly Prices for Cattle, Hogs and Sheep.....	90
Weekly Prices for Beef Product.....	91
Weekly Prices for Hog Product	92, 93
Monthly Receipts and Shipments of Barreled Pork	94
Monthly Receipts and Shipments of Meats (Hog Product not barreled).....	95
Monthly Receipts and Shipments of Lard.....	96
Monthly Stocks of Hog Product.....	97
Detailed Statement of Weekly Shipments of Hog Product	98, 99
Daily Prices of Wheat, Corn, Oats, Mess Pork and Lard for future delivery	100-111
Monthly Receipts and Shipments of Flax Seed	112
Monthly Receipts and Shipments of Grass Seed	113
✓ Weekly Prices for Salt and Seeds	114
Monthly Receipts and Shipments of Wool.....	115
Weekly Prices for Wool and Hides.....	116
Monthly Receipts and Shipments of Hides	117
Monthly Receipts and Shipments of Butter	118
✓ Weekly Prices for Butter, Cheese, Potatoes and Beans	119
Monthly Receipts and Shipments of Coal and Coke	120
Monthly Prices for Coal (delivered).....	121
Monthly Prices for Baled Hay	121
Lumber Statistics,—Receipts, Shipments and Stocks	122
Weekly Cargo Prices for Lumber, Shingles and Lath.....	122
Sources of Supply of Lumber and Shingles received by Lake	123
Distilled Spirits, Manufacture and Prices of	124
Lake Freights on Grain by Sail, Erie Canal Freights, and Through Rates to New York by Water	125
Lake (Steam) and Rail Freights Eastward	126
All-Rail Freights Eastward.....	127
Receipts and Shipments by Rail, not otherwise reported.....	128, 129
Receipts and Shipments by Illinois and Michigan Canal.....	130, 131
Lake Commerce of Chicago.....	133
Opening of Navigation at Mackinac for a series of years	133
Receipts and Shipments in 1880.....	134, 135
Arrivals and Clearances in 1880 and previous years	136
Marine Collections for three years	137
List of Vessels Owned in Chicago, with the Tonnage of each	138, 139
List of Vessels Built and Documented in Chicago in 1880.....	140
List of Chicago Vessels Reported Lost in 1880.....	140
Members of the Board of Trade December 31, 1880.....	141-191

OFFICERS

OF THE

BOARD OF TRADE OF THE CITY OF CHICAGO

FOR 1880.

JOHN H. DWIGHT, *President.*

H. W. ROGERS, JR., *1st Vice-President.*

R. W. DUNHAM, *2d Vice-President.*

DIRECTORS:

TERM EXPIRING 1881.
C. H. ADAMS,
C. D. HAMILL,
W. S. CROSBY,
E. I. WHEELER,
*THOS. HEERMANS.

TERM EXPIRING 1882.

GENERAL REVIEW.

JOHN H. DWIGHT, Esq., *President*:

Sir,—In presenting the accompanying statements of detail touching the Trade and Commerce of Chicago for 1880 it is gratifying to observe that in most of the commodities reported upon, the figures show a much larger volume of business transacted than in any previous year, and the same is believed to be true in respect to nearly all other branches of trade in the city, the exact returns of which are less available. The forecasting of indications which at the beginning of the year inspired high hopes of business activity and prosperity have been fully realized; and perhaps never in the history of the country has there been a year whose outcome has been more generally satisfactory in all sections and to all classes. Our own city is especially to be congratulated at the evidence on every hand that business pursuits are yielding to those engaged in them satisfactory returns. The merchant, the mechanic and the laborer have each in their respective avocations found abundant employment, and with rare, if any, exceptions have realized all they could reasonably have anticipated. Not only have business affairs been exceedingly prosperous, but the general health of the city has been maintained at its usual high standard, so that our people have been permitted, with but little interruption, to embrace the favoring circumstances, and vigorously prosecute the various forms of commercial and industrial enterprise with the great degree of success which is so generally apparent. The influx into our midst of new candidates for a share of that prosperity which has rendered this city more or less famous throughout the civilized world has been very marked; not only adding sensibly to our population, but in many cases introducing new industries, which in turn serve to invite still others to swell our numbers, which have increased more rapidly and continuously for the past forty years than any city in the history of the world whose basis at the beginning of such a term was less than five thousand souls. The decennial census of the United States, taken about the middle of the past year, gave to Chicago, within its corporate limits, a population of 503,053, against 293,977 in 1870, and 4,853 in 1840, an increase of over one thousand per cent in forty years, and of over sixty-eight per cent in the past ten years, notwithstanding the important fact that within the last named period the business center of the city and a large area of its resident portion had been laid waste by a conflagration unparalleled in modern times, and which in the minds of some sealed its fate as an active competitor in the race for commercial position. While these figures, subject to a possibly slight increase in the final compilation by reason of some known omissions, must be accepted as the population of the city proper, they do not fully measure its increase nor its present status, as at least 25,000 of the population (45,918) of the adjoining towns of Hyde Park, Lake, Cicero and Lake View are in every sense, except as to municipal affairs, as much residents of Chicago as if they domiciled within the corporate limits of the city. A stranger, and indeed most of our own citizens, passing the boundary line which separates these towns from the city would be wholly unable to determine, or even suspect, the point where the count of Chicago's population should cease and that of these towns begin. To all who are familiar with the facts in this respect this suggestion as to understated population for the *real* Chicago will be deemed

quite within the true figures, and upon that basis of estimate the population of the city may be safely stated at the close of 1880 as little, if any, short of 550,000. The facts developed by the census report will no doubt, as they unquestionably should, settle the question, hitherto deemed more or less debatable, as to where may be expected the future interior commercial metropolis of this great country, which now takes rank among the foremost in the world not only in area and richness of agricultural and mineral territory, but also in population, intelligence and wealth; if indeed it may not claim eminent precedence in nearly all these important respects.

The manufacturing industries of Chicago, as developed by the census returns, which are published in a condensed form herewith, are of an exceedingly important character; and while the city has not, hitherto, claimed or been accredited with special prominence as a manufacturing center, these show that in reality it is entitled to high rank as such. With the exception of woolen and cotton fabrics, nearly every branch of manufacture conducted in the usually recognized manufacturing cities of this country is quite fully represented in Chicago, while in the production of several important lines of goods the city has attained a decidedly eminent position. The returns for the year ending May 31, 1880, show an average of 87,675 employes, of all grades, in the 3,683 establishments from which returns were made. These, however, do not include a large number of small shops and several hundred persons whose employment is in the nature of a personal service, although strictly speaking a manufacturing industry, such as tailoring, dress-making and other occupations where the labor performed is wholly for the personal use of a customer who furnishes the material so manufactured; nor does it include small manufacturing establishments, usually conducted in connection with some other business, in which the annual product is less than five hundred dollars. The manufacturing industries of Chicago probably furnish direct support to from 175,000 to 200,000, or 35 to 40 per cent of the city's population, besides such as are employed as proprietors, or in the sale of commodities thus produced. The benefits to a great city resulting from the incorporation into its population of such a vast army of producers, whose earnings are necessarily largely expended within the city, are of so varied and so manifest a character that the extent to which it exists needs only to be developed to insure its just appreciation. Since the census report was made several large and many smaller manufacturing enterprises have been set in operation, and a recanvass of the city at the close of the year would develop for the calendar year of 1880 a very marked increase of these industries over the twelve months covered by the census report.

The financial affairs of the country still continue in the very satisfactory condition which has characterized them since the resumption of specie payments two years since, and, in view of the great success which has attended the attempt to place them upon a stable basis, it now appears remarkable that so many intelligent and experienced men should have questioned the expediency of this great reform. Coin is not only the nominal basis of all our monetary transactions, but is actually in circulation and in the hands of the people to as great an extent as they desire it in preference to paper currency. It is especially noticeable that under this system, instead of an irredeemable paper currency, the oft-expressed fears that the use of money would become dear, and therefore especially burdensome on borrowers, have not been realized, that use being now actually cheaper than ever before in this country. Public securities, which when so-called money was thought to be abundant, could not be negotiated for a currency worth but little more than half its face value in coin, unless they bore interest at six per cent per annum or more, are now eagerly sought by investors at four per cent, or even less, and the national credit is such that many believe its outstanding bonds can be refunded at three per cent, while no one questions its being done at three and a half. The uses of money in other countries have also become somewhat cheaper than formerly, but not to the same degree as in the

United States; hence in respect to the prosecution of great enterprises requiring the use of large capital and many employes, we are to-day, by reason of the cheaper cost here than elsewhere of the principal necessities of life and the reduced value of capital, much nearer on an equal footing with the most favored peoples in these respects than ever before.

The foreign trade of the country still continues largely in favor of the United States, so that if the present conditions of trade should continue for a few years longer our remaining indebtedness to Europe will either be wholly canceled, or we shall, in the meantime, receive from thence a sufficient amount of coin with which to discharge its last farthing. The exports of the last fiscal year of the government, exclusive of coin and bullion, exceeded by over \$124,000,000 those of any previous year; those of breadstuffs and provisions, in which the West is chiefly interested, amounting to over \$415,000,000, being more than half of the grand aggregate. The importations of merchandise increased by \$222,000,000 over those of the previous year, this being, at least partly, attributable to the sudden advance of prices in this country which set in during the early part of 1879, and was promptly met by largely increased importations of goods which could be sold here at, or below, the values then current.

The ocean carrying trade continues, as for several years past, to be conducted to the great disadvantage and mortification of the national pride of the United States. The total foreign tonnage entered at the seaports of the United States in 1860 amounted to 1,608,291 tons, in 1880 to 12,112,160 tons, while the American tonnage so entered was actually less in 1880 than in 1860. Within that time the tonnage engaged in the American trade owned by our greatest customer, Great Britain, has steadily increased, and now constitutes more than half of the whole; but the most noticeable changes have been in respect to vessels carrying the flags of other European nationalities. Scandinavian tonnage has increased from 42,672 in 1860 to 1,304,070 in 1880, German from 230,828 to 1,089,740, Italian from 31,501 to 612,584, Belgian from 640 to 226,349, Austrian from 5,464 to 206,349, and all maritime nations largely increasing their tonnage engaged in American trade except our own, a very large portion of this trade being carried in bottoms not only foreign to us, but also to the nations to or from which the cargoes are taken, while at the same time we are doing practically nothing in the general ocean traffic between other nations than our own.

The question of a remedy for this condition of things is daily growing in importance, and its solution is engaging the serious consideration of American merchants, as well as the legislators of the country. The large subsidies granted to ocean steamer lines by some of the European governments, notably by Great Britain, by the aid of which their merchants and ship owners have been enabled to build up, from an otherwise non-paying enterprise, a valuable commerce, which when established may be able not only to sustain itself unaided, but at the same time greatly contribute to the commercial supremacy of the nation which has thus fostered it in its infancy, thus returning to its treasury, indirectly, all or more than was originally drawn from it directly, is urged by many as an example worthy of imitation by the United States. Others insist that our navigation laws are defective, and especially that provision of our laws, unlike those of any other nation, which prohibits an American merchant from purchasing a foreign built ship and securing for it recognition and protection under the American flag is unwise and ought to be abolished; this is strenuously opposed by the shipbuilding interest as a proposition calculated to destroy their occupation for the benefit of foreigners; they, as a rule, insisting that the absolute prohibition of foreign built vessels to a United States registry should remain, not being willing to concede this right, even on the payment of an import duty upon such ships, as in the case of other importations which come into competition with those produced in this country. This, it must be conceded, is a most extraordinary demand, and

one that may perhaps challenge our admiration on account of its audacity, even if we are not convinced of its soundness as a proposition in political economy, especially as this is the only commodity, not prohibited on sanitary or moral grounds, which an American citizen may not purchase, and bring into the country for use or profit, when and from wherever he may see fit. The adherence to this policy, while it has not to any appreciable degree assisted in promoting American ship building (that interest being far less prosperous to-day than at any time in the history of the country when other industries were in as flourishing a condition as now, or even approximately so), has assisted in most effectually strangling American ocean commerce with foreign nations, and practically driven our flag from any share in the carrying trade of the world. While it seems but fair that the government of the United States should fully, even liberally, compensate such American lines of ocean steamers as may carry its mails, in the same general manner that it pays for mail transportation on the inland waters of the country, or by other modes of transportation, especially as large amounts of money in excess of the postal revenue derived from that service are annually paid for the transportation of mails in sparsely settled portions of the country, essentially a subsidy to those lines paid directly from the national treasury, yet the experience of the country in the granting of subsidies or compensation to ocean lines, beyond a proper allowance for mail transportation, has been so generally unsatisfactory in its results, being used to a large extent in such a way as to accomplish but little for the benefit of our commerce, but rather to promote wastefulness in management or stock jobbing schemes, that the people are little inclined to favor extensive appropriations from the national treasury for that purpose, and it is more than doubtful if we can expect any relief in that direction. It is a notorious fact that American ships are not managed and sailed on as economical a basis as those of most other nations, and the expense of sailing them is so much greater than those of some nations that in a free competition, everything else being equal, where ours would bankrupt their owners, theirs will bring to them a satisfactory return of profit. It is no doubt true that the rigid economy practiced on board and in all the management of a Scandinavian, an Italian or a German ship has had much to do with the late rapid advance attained by those nations in the carrying trade of the world. So that if we were permitted to buy foreign ships and register them under the American flag free of duty, it is by no means certain that, with our notions of the necessary expense of sailing them, we could successfully compete with others in even our own foreign trade, unless some legal advantages were given to ships carrying our own national flag. It may not be desirable to reduce the American ship to the practically pauper standard of many with which she must come into competition, but it would seem there is no alternative to this unless a highly discriminative tonnage tax is imposed on foreign ships bringing to or taking cargo from the ports of the United States. This is not a question of sentiment, much less one of political or partisan concern, but one directly affecting the commercial interests of the country, and is entitled to the most enlightened consideration of all who hold those interests to be worthy of the fostering care of the government. The experience of our merchant marine in the late civil war, when our opponents were able to place but three or four formidable cruisers on the ocean to intercept and destroy our ocean commerce, which they most effectually did, must forcibly suggest the great disadvantage we should labor under in case of war between Great Britain and any other prominent European nation. In such an event we should be shut in, much more than half the capacity for carrying our exports being practically wiped out of existence, not only defeating our ability as neutrals to reap any advantage from the situation, but entailing upon us positive and irreparable loss.

The cereal crops of the United States have again been most abundant, but according to the report of the United States Agricultural Department they have, with the exception of Wheat, been slightly below those of 1879. In Wheat the increase over 1879 is stated to be

about 32,000,000 bushels. The quality of these crops has, generally, proved quite satisfactory, perhaps more universally so than those of the previous year, although the exceptionally large yield of both Wheat and Corn realized in particular localities in 1879 has not been duplicated. A good foreign demand has existed almost without interruption throughout the year, which, supplementing an increased consumption in this country, resulting from the general revival of business, has readily absorbed our vast surplus at fairly remunerative prices to the farmer. The U. S. Agricultural Department estimates the value or market price at the point of production, for the principal crops of the past two years, as follows: in 1879, Wheat $110\frac{7}{10}$ c, Corn $37\frac{1}{2}$ c, Oats $33\frac{1}{2}$ c, Rye $65\frac{6}{10}$ c, Barley $58\frac{1}{2}$ c per bushel; in 1880, Wheat $94\frac{1}{2}$ c, Corn $40\frac{1}{2}$ c, Oats $36\frac{3}{10}$ c, Rye $73\frac{3}{8}$ c, Barley $64\frac{9}{10}$ c per bushel. These figures are of course only approximate, and apply to values soon after the several crops were harvested, the grand aggregate indicating an increased value to the producers of over \$3,000,000 for these crops raised in 1880 over those of 1879. In the production of Wheat, Corn, Oats and Rye, Illinois leads all the States, and the net profit on all these crops is probably larger in this State than in any other, ready and cheap access to market being an important item in this respect.

The receipts of Grain at Chicago have been unprecedentedly large, aggregating for the year (flour reduced to wheat) the enormous volume of 165,855 370 bushels, not including such as arrived in the form of Oat Meal and Corn Meal. This is about twenty per cent in excess of those of 1879, which were largely in excess of those of any previous year.

The value of farm products, in their various forms, shipped from Chicago during the the year may be stated about as follows:

Flour and Grain	\$85,500,000
Live Stock	63 800,000
Meats, Lard, Tallow, and Dressed Hogs	93,900,000
Butter and Cheese	15,500,000

A total of	\$305,400,000
Corresponding estimate for 1879	252,152,000
Corresponding estimate for 1878	207,400,000
Corresponding estimate for 1877	218,400,000
Corresponding estimate for 1876	231,450,000

By far the largest portion of the above shipments were made to points of consumption in the Eastern States and to Europe, no inconsiderable amounts, however, going to the Southern States and to Canada. The amount consumed in the city is not included in the above calculations. For details as to the lines of distribution, as well as those of supply, reference is made to the several statements of the movement of property submitted herewith.

FLOUR.

The movement of Flour through the city has been somewhat less than in 1879, owing to the light crop of Wheat in Minnesota harvested in that year. The city manufacture has been smaller than since 1872, and with the exception of that year the smallest since 1859. This important branch of business does not seem to invite special effort for its vigorous prosecution in this city, presumably on account of the price of Wheat ranging almost always relatively higher here than that of Flour. The city manufacture is now less than half the city's consumption. The trade in Flour has been fairly active, although rarely subject to the excitements which at times prevail in the market for Wheat. The latter being dealt in largely on speculation, frequently fluctuates ten cents or more per

bushel without in any perceptible degree influencing the price of Flour, which is not to any extent a speculative commodity. While a large portion of the Flour passing through the city is not warehoused here, as in former years, much less is sold without the intervention of Chicago merchants than for several of the later years, and a good portion of trade temporarily lost to Chicago commission merchants by the practice of millers selling direct to eastern or foreign dealers has resumed its old channels, sales being effected here, but the property so sold being shipped direct from the mill to the purchaser or his consignee. The foreign demand for Flour has fully kept pace with that for Wheat, and for Great Britain has advanced relatively more rapidly than that for Wheat. As yet comparatively little American Flour is taken direct for the Continent. Winter Wheat Flours are dealt in very much more largely in Chicago than formerly. Red Winter Wheat of the harder varieties is now manufactured by the new processes into a Flour that in every respect rivals that made from the best Minnesota Spring Wheat.

WHEAT.

The receipts of wheat were largely below those of 1879, being but 23,541,067 bushels, against 34,106,109 the previous year. This large decrease in receipts may be accounted for partly because of the poor crop in the Spring Wheat sections of the West in 1879, and partly from a disposition on the part of farmers to hold the crop of 1880. The decline in receipts of Spring Wheat has been even more than the above figures would indicate, as the receipts of Winter Wheat were larger in 1880 than in 1879. Unless the estimates of the outturn of the Spring Wheat crop of 1880 are grossly erroneous, the deliveries during the remainder of the crop-year must be materially larger than those of the first half of 1880. Prices, during the year, have maintained substantially the same range as in 1879. The extremes for No. 2 Spring, cash, in 1880, were 86½ cents per bushel in August, and \$1.32½ in January. In 1879 they were 81¾ in January, and \$1.33½ in December. The average for 1880 has, however, ruled somewhat higher than for the previous year, the average price for No. 2 Spring—reference being had to the quantities shipped in each month—has been nearly 102 cents per bushel. The quality of the Wheat received in 1880, compared with that received in 1879, as indicated by the Inspection, has been slightly better for the Winter Wheat, and very much better for the Spring Wheat; this feature of the question conforming to the general report of the crops. The stock held in store, especially during the early months of the year, has been larger than ever before; never falling below 700,000,000 bushels until near the middle of June, and from September 1 steadily increasing to over 7,000,000 at the close of the year. The tendency to hold a large reserve of Wheat in Chicago, shipping it to points of consumption as needed, seems to be increasing, and, no doubt, results in securing for it a better average price than if it were pressed forward to be held in large quantities at the seaboard or in Europe. It has, however, taxed our storage capacity to a degree that has, within the past two years, effected a practical blockage in receipts on several occasions; but it is believed that, with the additional storage capacity brought into use within the past year, this may be avoided in the future. In view of the large earnings of our city elevators, from extra storage, resulting from this tendency to hold grain in store for a longer time than formerly, it seems pertinent to suggest whether it would not be both prudent and wise to reduce the first or transfer charge to an even cent per bushel. It is the cost of moving property through the city that is of the greater importance to the producer, the extra storage charge presumably falling upon the speculator, whose expectations of profit must necessarily take into consideration the expense of holding his property for the anticipated rise.

The crop of 1880, as estimated by the United States Agricultural Department, amounted to 480,849,723 bushels; the increase over 1879 being mainly due to the larger area cultivated, this increase amounting to about 3,500,000 acres. The exports of the year (from

ERRATA.—700,000,000 should read 7,000,000 in the eighteenth line from the bottom of page xiv.

Atlantic ports) have been substantially the same to Great Britain, but less, by over 7,000,000 bushels, to the Continent. The prospects for a continued large European demand for American Wheat, at the low prices at which it can be placed there in competition with the home production, seem most flattering; and the fact that we can, with a profit to our producers, undersell the product of the farmers of those countries, especially of England, seems to be so far accepted by them as to produce grave apprehension as to their ability to sustain themselves and continue to pay the rentals heretofore demanded by the land proprietors. This is evidenced by the large immigration to this country of English farmers, and the well-authenticated reports of discouragement on their part as to their future prospects at home. Public discussions by prominent British statesmen and merchants also point to the same conclusion. A prominent British merchant, in a late public address, alluding to the fact that a year's supply of bread and meat can now be transported from Chicago to Liverpool at a cost of little more than two days' wages of an artisan, or four days' wages of a laborer, adds: "To the consumer this is an enormous benefit, but to the producers of food in this country, and Europe generally, a fact of momentous import, with which they must prepare to reckon." The Commissioners of the British Government, who visited this country in 1879 for the purpose of officially investigating the facts bearing upon the question of the American food supply and its cost, in their report seem inclined to belittle the gravity of the situation, as it affects the interest of those of their own people engaged in agricultural pursuits; and while saying many pleasant and kindly things in respect to the people of the United States, and volunteering some good-natured and not inappropriate hints in regard to American habits of wastefulness in the conduct of farming operations, they summarize the result of their investigations in a way that seems to indicate a wish to calm a known apprehension at home at the expense of a fair statement of the real question involved. We may excuse their conclusion that "After all, America is no paradise; that in the contest for agricultural supremacy, while fresh, unexhausted soil, a level surface, and the absence of stones, are highly favorable for the profitable use of modern machinery, and the manufacture of grain by a scourging course of cropping, still drawbacks exist which tell in favor of the old country. They may be stated in a few words. Severe winters, putting a stop to agricultural employment, dangerous droughts, injurious insects, and, in the prairie land (in the absence of lakes), a short supply of good water." No doubt all these conditions do exist, one here and another there, throughout this vast country, but the gentlemen will scarcely claim that the combination applies to the country at large in a more marked degree than equally unfavorable conditions exist in their own country, or in almost any other part of the world. With the present means of obtaining information, even this array of horrors will scarcely serve to deter the English tenantry from the effort to better their condition and the prospects of their families by seeking a home on the virgin soil of our vast domain, where, if it be profitable to do so, they may introduce and prosecute the better modes of farming which these gentlemen intimate prevail in England. We do, however, object to the figures they present—which have been severely and justly criticised by their own countrymen—as the cost of producing and delivering in England American Wheat, because, if they are true, they seriously reflect on our national prosperity, in that they point to a positive loss to our people on the greater portion of the Wheat exported from this country to Europe; and if they are true, we are approaching bankruptcy at a time when we are enjoying the delusion that the country was never so rapidly increasing in the accumulation of wealth. The Commissioners claim to have ascertained that in the Western States it costs on an average eighty-four cents to produce a bushel of Wheat and deliver it to the nearest railway station, to which they add, for transportation to Liverpool and other necessary charges, $59\frac{3}{8}$ cents per bushel, making the average cost of a bushel of Wheat, when sold in Liverpool, $143\frac{3}{8}$ cents, and this yielding no profit to the farmer beyond the simple wages of a common farm hand. All reliable

evidence tends to prove that the average cost of producing Wheat in all the Western States, on the low average yield of twelve bushels per acre, does not exceed seventy cents per bushel ; in Illinois, where the average yield for the past three years has been sixteen and a half bushels to the acre, it is still less than seventy cents. The average cost of delivery, transportation to, and sale in, Liverpool, from all points in the Western States, will not exceed fifty-four or fifty-five cents per bushel ; so that a sale at one dollar and twenty-five cents per bushel, in Liverpool, would involve no loss to the average of Western Wheat raisers. During the past year No. 2 Spring Wheat has averaged, in Liverpool, over one hundred and forty cents per bushel, while No. 2 Red Winter, of which there is exported much the larger quantity, and on which the average transportation charges to the seaboard are materially less, has averaged over one hundred and forty-six cents per bushel. From these figures it will be seen that, at least during the past year, we have been enabled to realize a handsome profit on our Wheat exports, and not simply the bare expense of producing it, as might be inferred from the commissions report.

CORN.

The greatest increase in receipts has been in Corn. These have aggregated 97,272,844 bushels, an increase over those of 1879 of over fifty per cent. But for the partial blockade in the movement previous to the opening of Lake navigation, which forced considerable quantities into other channels, the movement of this cereal through Chicago would no doubt have exceeded 100 000,000 bushels, which is more than the receipts of all grain in any year previous to 1878. For the six months from May 1 to October 31 the receipts averaged equal to more than one thousand cars of 24,000 pounds each for every working day. When in connection with this fact is considered the enormous movement of other grains, live stock, and the multitude of other agricultural products, some idea may be formed of the magnitude of the trade of Chicago in these commodities. The quality of the grain has been remarkably good, though, as indicated by the inspections, scarcely up to that of 1879. Prices have ranged higher than the previous year and unusually steady within the range, for cash No. 2, of $31\frac{1}{2}$ in April and $43\frac{3}{4}$ cents per bushel in November. The crop of the country, as estimated by the Agricultural Department, was substantially the same in 1880 as in 1879, or nearly 400,000 less acres in 1880 than was grown the previous year. In Indiana, Illinois, Missouri, and Kansas, the production is reported sensibly less in 1880 than in 1879. In Illinois, while the State and National estimates agree that the production was about 50,000,000 bushels less in 1880 than in 1879, they differ by nearly 12,000,000 bushels as to what that production really was; the State Board of Agriculture estimating it at 250,697,036 bushels, and the United States Agricultural Department placing it at 262,265,200 bushels. The most remarkable difference in these reports, however, is in the acreage, the State Board stating it to be 7,574,545, and the National placing it at 8,742,178. This difference in acreage, on the National Department's estimate of yield per acre, would make over 35,000,000 bushels difference in the product of the State. Such discrepancies, and similar ones, existing, although to a less extent, in respect to other grains, suggests the query as to which, if either, of these estimates may be accepted as even approximately correct. In 1879 the National Department stated the acreage of Corn grown in Illinois to be 8,920,600 acres; the State Board stated it to be 7,918,881 acres, while the assessors' returns were 7,801,900 acres. This seems to point to a grossly exaggerated estimate by the National Department, and a suspicion of similar errors throughout the country would so disturb confidence in that report as to render it valueless as a basis for commercial calculations. Great Britain has taken from us in 1880 substantially the same as in 1879, while the Continental countries have nearly doubled their consumption of American Corn within the past year. The movement hence to the eastward has been over 30,000,000 larger by Lake than in 1879; by rail but little more than the year before, with one additional railway line, which carried over 3,000,000 bushels.

OATS.

The movement in Oats has been larger than ever before. The receipts were 23,490,915 bushels, against 16,600,428 in 1879, and 17,888,724 in 1873, the latter year having exceeded any other prior to 1880. The extreme range of prices has been, for No. 2 Mixed $22\frac{1}{2}$ cents per bushel early in August and $35\frac{1}{4}$ about the middle of January, against $19\frac{1}{2}$ and $36\frac{3}{4}$ in 1878. The average of sales has been at about $30\frac{1}{2}$ cents. The crop of 1880 throughout the country was less on a larger acreage than that of 1879; in the West it was about the same in quantity, in the Eastern States not so good; in quality the deliveries at Chicago have been more variable, and the inspections below No. 2, especially on the new crop, larger than the previous year. The production of White Oats, which in late years are much preferred, seems to be rapidly increasing, the inspections of such for 1880 being 10,533 cars, against 2,207 in 1875, 2,414 in 1876, 3,288 in 1877, 8,967 in 1878, and 7,273 in 1879. The manufacture of Oat Meal in the West, mainly for export, has now become quite an important industry, the product meeting with much favor in Great Britain.

RYE.

The receipts of this grain at Chicago are rather unimportant, and its production does not seem to be growing in favor in the Western States. Illinois produces more than any other State, but it is mainly consumed at home. The receipts in 1880 have been 1,869,218, against 2,497,340 in 1879. Prices have ruled decidedly higher than those of the previous year, with very much more of the speculative element exerting its potent influence; the extreme range has been 66 cents in August, quickly followed by $88\frac{1}{2}$ by the middle of September, and $91\frac{1}{2}$ in November, closing a few cents higher than at the beginning of the year.

BARLEY.

The receipts of Barley were 5,211,536 in 1880, being about 275,000 bushels in excess of those of 1879. The market for the old crop was without much life, the demand being almost entirely for consumption either in the city or elsewhere, prices for Extra No. 3 (the bulk of the receipts) ranging between 53 and 70 cents per bushel, with No. 2 fifteen to twenty cents higher. On the incoming of the new crop the titles of grades below No. 2 were changed, not, however, essentially changing the qualifications of them. Since August there has been more of speculation on future deliveries than for a year or two previously. This has been mainly confined to No. 2 and No. 3, and somewhat of the former rapid and wide fluctuations have been realized. Early in September No. 2 (cash) sold at 75@80c, and the new No. 3 at 55@60c per bushel; from these prices No. 2 advanced to 120 and No. 3 to 88 about the middle of December, closing at a decline of several cents from these figures. The city consumption, both for brewing and malting for shipment, has largely increased within the past few years, and the stock remaining in the city elevators at the close of 1880 is much smaller than at that time for several years past, being less than 300,000 bushels. The aggregate stocks in public warehouses in the United States and Canada is less than at the close of 1879 by over 1,000,000 bushels. No Barley was shipped hence by Lake in 1880, and only about one-half of the entire shipments went by east-bound railroads.

LIVE STOCK AND PACKING.

There was received at the Union Stock Yards in this city, in the past five years, Live Stock in numbers and value as below, as reported by the Secretary of the Stock Yards Company :

Years.	Cattle, Number.	Hogs, Number.	Sheep, Number.	Horses, Number.	Total Value.
1880.....	1,382,477	7,059,355	335,810	10,398	\$143,057,626
1879.....	1,215,732	6,448,330	325,119	10,473	114,795,834
1878.....	1,083,068	6,339,654	310,420	9,115	106,101,879
1877.....	1,033,151	4,025,970	310,240	7,874	99,024,100
1876.....	1,096,745	4,190,006	364,095	8,159	111,185,650

The above shows not only a gratifying increase in the number of Cattle and Hogs received, over 1879, but also an extraordinary increase in value over any previous year in the history of this important branch of Chicago's trade. The quality of Cattle and Hogs received has improved within the past fifteen years in nearly as marked a degree as have their numbers. In no branch of agricultural enterprise does the question of quality enter so largely into the increase of the farmer's profits as in that of stock raising; and year by year abundant evidence is shown that this fact is being fully realized by the stock raisers of the West. The demand for Cattle has been good throughout the year, and prices have ruled higher and more steady than in 1879. At times the demand for choice stock has exceeded the supply, large as it has been. Choice Beeves opened in January at about \$5.00 per 100 lbs, selling in midsummer as low as \$4.70@ \$4.75, and closing in December at \$6.00, or a trifle over. Extra have ranged at 25 cents to \$1.00 per 100 lbs over the above figures, depending on quality. A considerable number have been taken for export alive, others for slaughter here or at the East, and then to be exported in the carcass. This branch of business is increasing, and appears to be growing in favor with both shippers here and consumers in Europe.

In fresh Beef the exports for 1880 were over 100,000,000 lbs, against 66,000,000 in 1879. The declared value at the Custom Houses is, however, notwithstanding the higher price for Cattle at this point, a trifle lower per pound than the exports of 1879. Whether this is due to a slightly lower quality in the latter year, or to an under valuation, is not clear. In either case it is well understood that only really choice beef can be profitably exported in that way. The canning of beef and other articles of cooked food has increased by the establishment of two new enterprises in the city for that purpose during the past year. Besides the foreign demand for this class of meats a very considerable quantity is taken for the Western territories; and, in fact, owing to the high degree of excellence attained in its preparation in this city, it is working its way rapidly into public favor throughout this country as well as in Europe.

In Hogs the trade has been very satisfactory to growers, prices having ruled materially higher than in 1879; and while the receipts have been very much larger they have been promptly absorbed, the supply at times being quite below the demand. The highest range of prices was attained in September; the lowest were in May and June. The quality of the Hogs received has been exceptionally good, owing in part to the improved character of the stock, in part to the abundance of corn with which to prepare them for market, and in part from the healthy and vigorous condition in which they have left the farm. The so-called hog cholera has not to any appreciable extent affected the stock raised in 1880, very little complaint having been made of loss by this or any other disease to the stock. The official returns of the State Agricultural Department report but about seven per cent of loss for the year; and these, as indicated by the reported weight, being mostly pigs or very small hogs. This is less than half the annual loss of three or four years since; and when it is remembered that all diseases to which swine are subject, even the death of young pigs by cold, wet or neglect, is usually charged to hog cholera, it will be seen how utterly insignificant is the damage from the real disease whose title is so indiscriminately appropriated. Although the receipts have been over 600,000 more than in 1879, the shipments were more than 300,000 less, indicating an enormous increase in the packing at this point. The difference in receipts and shipments indicates the slaughtering of 5,664,365 head in 1880, against 4,755,939 head in 1879. The census return, June 1 to June 1 was 5,140,000, but it is probable that a few reported as packed were of Hogs received from the country dressed, the census return not calling for a separate report of the packing of Hogs bought dressed. The city consumption of fresh pork sold by retailers is very large. A few of the larger meat market proprietors pack a limited quantity of meats, and render some lard for the general wholesale market. In the census return from such establishments the sales of fresh meats were not included in the report of manufacture.

THE PROVISION TRADE.

This branch of the city's business has been subject to more than usual excitement and fluctuations, with a decidedly higher range of prices on all hog product than in 1879. The market for cash Mess Pork has ranged between the extremes of \$9.37½ in April and about \$20.00 per barrel in October ; for cash Lard between \$6.35 per 100 lbs early in June, to \$8.75 in November. These articles have been dealt in for speculation on a very large scale, the difference in the views of different individuals as to their value being very wide. Between February and November, although it was well known that no additional Mess Pork could be made and delivered on maturing contracts within that time, and hence the available supply for such a purpose was approximately known, still so strong was the confidence of many that prices could not be maintained, that enormous sales were made for future delivery at a range sometimes largely below current rates for cash pork. Some success was had, previous to June 1, in beating down prices by this means ; but from that time forward "short" sellers were on the losing side and suffered severely. Never before in the history of the trade has there been a contest of this character of so long duration or involving such vast operations. The stock of Mess Pork, which on April 15 exceeded that of a year previous by nearly 100,000 barrels, was gradually reduced until by September 15 it was about 13,000 barrels less than at the corresponding date in 1879, and at that time was but 81,850 barrels, with outstanding contracts for delivery before any relief could come from new pork of several times that quantity. Under such circumstances the outcome of the contest was clearly apparent, and was generally accepted with but little of complaint considering the extent of the losses involved. In Lard the transactions of a speculative character have also been very large, but has attracted less general attention, while prices have been confined within narrower limits. In Dry Salted Meats the trade has been of a more legitimate character, with a steady and large demand, both for consumption in this country and for export. The shipments from Chicago have been 958,036,113 pounds of Middles, Hams, Shoulders and miscellaneous cuts of Hog Product, against 835,629,540 pounds in 1879 ; of Lard 333,539,138 pounds in 1880, against 251,020,295 pounds in 1879 ; gross weight wherever packages are used. The exports for the calendar year of 1880 was 815,279,148 lbs of Bacon and Hams, and 413,753,426 lbs of Lard ; in 1879, of Bacon and Hams 747,338,377 lbs ; of Lard 344,411,066 lbs. The largest increase in the exports of both Meats and Lard has been to Great Britain, which is by far our best customer. There has, however, been a large increase to both France and Belgium, while Germany has taken somewhat less than the year previous. The character of Meats packed in this city is constantly improving, but some complaint has been made of Meats shipped in a partly cured state or were held for too long a time without overhauling after arrival at destination. It is certainly bad policy to export by a long voyage, and especially in hot weather, meats imperfectly cured or in any manner questionable as to their quality or condition. The trade is of too much importance to be in any way trifled with, as, if our meats are held to a high standard of excellence, there is scarcely a limit to which we may not reasonably expect the demand for them to attain.

OTHER FARM PRODUCTS.

The receipts of Dairy products have been very large, far in excess of any former year. Those of butter aggregating 68,387,204 pounds, and of Cheese 43,664,790 pounds. The quality of these products has steadily improved, until a large portion of both the Butter and Cheese marketed in Chicago has attained a very high degree of excellence. Prices have averaged considerably higher than in 1879, and the net profit to producers is presumed to have been very satisfactory. Local dealers are taking great pains to impress upon producers the importance of adopting the most approved methods in the manufacture of these articles, and the effect is seen in their constantly improving quality of them. The

exports for the year have been less by about 7,000,000 pounds in Butter than in 1879; in Cheese substantially the same in both years. The declared values, however, have been largely in excess, that of Butter being nearly \$1,000,000 more, and of Cheese over \$4,300,000 more than the exports of 1879. As heretofore, the great preponderance of the exports of these products is to Great Britain.

The trade in Flax Seed still continues to increase, the receipts for 1880 having been 3,427,833 bushels, against 2,129,692 bushels in 1879. Prices early in the year were higher than at any time in 1879, reaching \$1.70 in January and February for choice seed. Since July, within which time the bulk of the receipts has been marketed, the range has been much lower than the previous year, so that the average of sales for the year have been at 12 to 15 cents per bushel lower than those of 1879. The production of prime flax seed has increased so rapidly of late years that the importations of East India seed have fallen off more than half within the past ten years. Early in the year an inspection of flax seed was established by the Board of Trade, and considerably more than half the seed received since it went into operation has been inspected. All sales are made upon the basis of pure seed, the inspector, by the aid of appliances adapted to that purpose readily determining the percentage of impurities in it, and certifying to the facts in that respect, as well as to the quality of the seed. The inspector's tests from early in March to the close of the year averaged $6\frac{1}{2}$ per cent of impurities. The system of inspection as now organized seems to meet with the general approval of the trade. The receipts of seeds other than Flax have also been larger than in 1879 by about 5,500,000 pounds. Prices for Timothy have averaged decidedly higher than for the previous year, and within very much narrower limits. The lowest prices prevailed in midsummer at about \$2.25 for good seed; at the close it was about \$2.40, which is five to eight cents below the average of the year's sales. Clover Seed has also averaged higher than in 1879, although at no time attaining the extreme figures of that year. At the close of the year good Clover Seed would command \$4.90 to \$4.95.

The receipts of Wool show a large decline, being the smallest in 1880 of any year since 1873. The range of prices on most grades shows a gradual decline from February to November, after which there was a slight rally, which was maintained to the close of the year. The receipts of Hides have been larger than ever before. Prices have ruled much higher and far more uniform than in 1879. The consumption by city tanners is about 400,000 hides and 1,400,000 to 1,500,000 calf and sheep skins, which in hides, large as it is, is less than the production of the city slaughtering.

In Vegetables, an important item of farm production, the receipts, mainly for city consumption, have been very large, furnishing an abundant supply of a quality equal to that of any city in the country.

The magnitude of the city trade in Fruits, especially green fruits, is far beyond the general belief in that regard. A careful canvass of this branch of trade, for the United States census office, by Mr. John E. Cowles, a gentleman peculiarly well fitted for such a service, developed the fact that the value of green fruits sold in Chicago during the census year was about \$10,000,000, nearly all of which was the growth of the Northwestern States. In addition to this there is a large trade in dried, canned and foreign fruits, the whole aggregating over \$16,000,000. A large portion of this trade is for local consumption, but considerable quantities are shipped in all directions from the city.

LUMBER.

The receipts of Lumber aggregate for 1880 1,561,779,206 feet, being largely in excess of any previous year, and more than double those of any year previous to 1867. Prices by cargo were on a very much higher range, averaging full one-third higher to about the 1st of September than in 1879, since which they have averaged about the same as in the

corresponding time in the previous year. The year's business has been exceedingly satisfactory to manufacturers of lumber, as well as to dealers generally.

DIRECT EXPORTS TO EUROPE.

The aggregate tonnage exported on through bills of lading has been less by over 100,000 tons than in 1879. In meats, lard, butter and cheese it has been larger, but in flour and grain materially less. With the single exception of 1879, when the export of corn in this way was unusually heavy, the business of 1880 has been the largest of any year since the inauguration of this trade.

TRANSPORTATION.

This question remains in much the same position as a year since. Two new railway lines have been established in 1880. The Chicago & Grand Trunk, connecting direct with the Grand Trunk Railway of Canada, and by it and its connections with all eastern points north of Philadelphia, was opened to this city in February, and the Wabash, St. Louis & Pacific, whose lines ramify the West and Southwest, secured its entrance in August. These are important accessions to our railway system, and promise to contribute largely to the commercial prosperity of the city. If they do not bring in competitive elements, they will at least be able to furnish largely increased facilities. Previously established lines have extended their tracks into new territory, inviting immigration thither, all of which insures increased production, and in every way tends to brighten future prospects for the commercial interests of the city.

The great railway corporations of the country are rapidly absorbing the smaller or weaker ones as parts in their respective systems, or to destroy them as competitors. Reflecting men stand aghast as they observe link after link forged and firmly welded in the great chains which a very few individuals hold, and so effectually control as to be a standing menace to the commercial prosperity of the country, and to its best and highest interests. In the meantime efforts to resist undue encroachments are paralyzed, a faint protest or note of warning is now and again heard in the land; the "views" of some distinguished statesman, lawyer, merchant or railway magnate are sought, given and published, discussed perhaps for a few days, and then all is still. The work of broadening, deepening and strengthening a power more potent than governments, however, moves quietly but steadily forward, while legislators, state and national, are lulled into a dream that "all is well," or are held by the throat with a mailed hand that threatens, with the ability to execute, political annihilation if the first move be taken to interfere in the progress of schemes for the absorption of the people's substance, or in any manner embarrass those who "having possessed themselves of the gateway of commerce," claim the right of enjoying all the advantages of the situation which their own ideas of right and justice may suggest that they are entitled to.

Regretting that the issue of this Report must, from causes beyond my control, be delayed far beyond the date when I desired it should be in your hands,

I am, MR. PRESIDENT,

Your obedient servant,

CHAS. RANDOLPH,

Secretary.

CHICAGO, *January 1881.*

REPORT OF THE BOARD OF DIRECTORS.

To the Members of the Board of Trade, Chicago:

GENTLEMEN,—In accordance with the requirements of the Rules of the Association your Board of Directors respectfully submit the usual report of the condition of the affairs of the Board, and of its receipts and expenditures during the past fiscal year. These have been as follows:

RECEIPTS.

From annual assessments 1,793 members at \$20.....	\$35,860 00
From transfer fees on 201 memberships at \$10.....	2,010 00
From special tickets (railroad and other agents).....	1,060 00
From sale of visitors' tickets.....	5,730 00
From clerk's tickets to settling room, less its expenses.....	120 00
From fines, less expenses of same.....	287 34
From rent and premiums of sample tables.....	7,722 00
From interest and dividends on investments.....	9,900 00
Total receipts.....	\$62 689 34
To which add cash in the hands of the Treasurer, as per last annual report.....	4,030 87
Total to be accounted for.....	\$66,720 21

DISBURSEMENTS.

For current expenses, to wit:

Rent, heating and water.....	\$21,369 00
Salaries (except for elevator and clerk's room).....	17,695 21
Market reports and telegraphing same.....	4,871 31
Maintaining and operating elevator.....	3,166 00
Annual report, less sales.....	2,171 03
Tellers' repairs, taxes and badges.....	1,634 31
New engine and changes in ventilating apparatus.....	1,279 82
Stationery and printing.....	1,084 16
Canal, Custom House and Stock Yard reports.....	411 00
Newspapers, circulars and postage.....	258 30
Expenses of lavatory, cleaning, ice, gas, flour samples and miscellaneous items.....	1,596 09
Attorney's fees and expenses.....	502 25
For expenses commercial building, less rentals.....	\$56,038 48
For payments on account of National Board of Trade.....	3,236 41
For payments on account of previous year.....	418 05
For payments on account of previous year.....	779 93
Total payments.....	\$60,472 87
Cash in the hands of the Treasurer, as per his report.....	6,247 34
	\$66,720 21

The investments of the Board in securities remain as at the last annual report, viz:

1,050 shares of Chamber of Commerce stock, net cost	\$83,250 51
United States 4 per cent. registered bonds, par value	40,000 00
Hyde Park 7 per cent. bonds, par value	30,000 00
Chicago City 7 per cent. bonds, par value	10,000 00
Cook County 5 per cent. bonds, par value	5,000 00
Total investments	\$168,250 51
Add cash in the Treasurer's hands	6,247 34
Total assets	\$174,497 85
Not including furniture and fixtures in current use.	

It will be seen from the above that the revenues of the Board for the year have exceeded the expenditures by \$2,216.47,—being the excess of balance on deposit with the Treasurer over the same at the close of the previous year,—over \$1,600 of this having been derived from increased revenue from the sale of choice of sample tables. Your directors regret that the limited space which can possibly be devoted to these tables in our present Exchange Hall so reduces the number available as to invite a contest for their possession which results in imposing a burdensome tax on those of the members whose business requires the accommodations they afford.

The assessment for the expenses of the Board for the ensuing year has been fixed by the Board of Directors, as required by the rules, at twenty (20) dollars on each member; the Directors construing the rule in respect to assessments as intending that the assessment for each year shall be fixed at an amount which will, with other anticipated revenue, be sufficient in their judgment to meet the necessary expenditures for that year. A literal construction of the rule, however, would warrant a very much higher assessment than has been imposed in late years.

The membership at the close of the year numbers seventeen hundred and ninety-three, four memberships having been allowed to lapse, and so become forfeited, by the non-payment of the annual assessment for 1880. During the year, two hundred and one memberships have changed owners, in several instances the new member taking an active part in the daily business on 'Change, while the retiring one was seldom to be seen in our midst. The process of supplanting the names of those on our membership roll who only occasionally visited the Exchange room by others who are in daily attendance, has tended, even in the face of a slightly reduced membership from year to year, to sensibly increase the crowded condition of our present quarters. Your Directors regret the loss to our membership of some, thus withdrawn, who had been identified with this body for years, and whose continuance as members was to us exceedingly desirable. We are not, however, unmindful of the fact that the inconvenient means of access to our Exchange room, and its crowded condition when reached, presents but little inducement for the pleasurable attendance of those whose business does not necessarily call them hither.

Since our last annual meeting, death has removed from our midst twelve of our members. Among these were several who had been associated with us for many years, whom we had, by long association, learned to respect and love. Several who have thus passed away were men of more than ordinary character, who filled positions in society, public and private, of high honor and of great usefulness. The great throng of humanity may move forward, comparatively undisturbed by the dropping out here and there of even its brightest jewels; but we may not forget the aching hearts in the homes bereaved by the shadow of the grim messenger, whose near approach we may little suspect. For the first time in the history of the Board, so far as is known, a chair has been vacated in your Board of Directors by a summons to the spirit-land of Mr. Thomas Heermans, one of our number. We have preferred that chair should remain unfilled by another during the

term for which our departed brother was elected, lest we lose the influence of that kindly and generous spirit which ever controlled his every thought and action. We have missed his counsels, and you have lost the benefit of the timely and wise suggestions he was ever considering for the highest interests of this organization.

The past year has brought abundant harvests, which, with the generally revived industries of the country, have contributed to an unprecedented volume of business for our city. The movement of agricultural products through our markets has been in largely increased quantities, and has in the main been fairly remunerative to those who have been engaged in facilitating its passage from producer to consumer. The new year opens with auspicious promise, and your Directors take pleasure in congratulating the members of this body on the reasonable expectation of a continued season of unusual prosperity in those lines of business in which they are largely engaged.

The growing dissatisfaction with the present accommodations for conducting business by the members of the Board, on account of the crowded condition of our Exchange Hall, claimed the early consideration of the Board of Directors, and steps were taken, soon after the last annual meeting, to devise some means of relief in this respect. These have finally culminated in the proposition recently submitted to the members for their expression. The decision of the Board on this subject being so emphatic in its approval of the action already taken, it is hoped no serious obstacles will be found in the way of successfully carrying out the contemplated acquisition of quarters that shall be ample for all the purposes of the Board. It has been a source of profound regret that it seemed to be necessary, in order to secure such accommodations as are deemed essential, that some disturbance of the hitherto center of the business of the members must occur. In case the suggested arrangement should be carried to a successful accomplishment, it is not believed, by careful students of the past and the probabilities of the future, that at most anything more than a temporary depression is likely to result to the property in the immediate vicinity of this building. In the event of the desire of the Board as now expressed being defeated, it is difficult to see where other suitable accommodations can be secured, except at so great an expense as to render it wholly impracticable, without entirely abandoning LaSalle street, and this the Board would not probably desire to consider favorably, except upon the consideration of absolute necessity.

Respectfully submitted by vote and on behalf of the Board of Directors.

JOHN H. DWIGHT, *President.*

CHICAGO, *January 10, 1881.*

In the last thirteen amounts the cash in the Treasury is deducted from the aggregate debt, and bonds issued in aid of the Pacific Railroads are not included; these amounted, on the first day of January, 1881, to \$97,505,726.95, including interest paid by the United States

DETAILED STATEMENT

Of the Public Debt of the United States on the 31st of December, 1880.

		AMOUNT OUTSTANDING.
DEBT BEARING INTEREST.		
Six per cent. Bonds, known as Bonds of 1881.....	\$202,266,550 00	
Five per cent. (Funded Loan) payable after May 1, 1881.....	469,651,050 00	
Four and a half per cent. (Funded Loan) payable after September 1, 1891.....	250,000,000 00	
Four per cent. (Funded Loan) payable after July 1, 1907.....	738,420,400 00	
Four per cent. Refunding Certificates.....	927,400 00	
Three per cent. Navy Pension Fund.....	14,000,000 00	
		\$1,675,265,400 00
Debt past due upon which interest has ceased since maturity.....		11,484,395 26
DEBT BEARING NO INTEREST.		
Old Demand Notes issued in 1861-2.....	\$60,745 00	
Legal Tender Notes.....	346,681,016 00	
Fractional Currency.....	7,147,530 12	
Certificates of Deposit (Currency).....	7,005,000 00	
Certificates payable in Gold.....	6,658,880 00	
Certificates payable in Silver.....	45,582,130 00	
		\$413,135,301 12
Interest due, and accrued but not yet due.....		21,596,379 02
Total Debt.....		\$2,121,481,475 40
Cash in the Treasury.....		222,299,739 41
Total Debt, less Cash in the Treasury.....		\$1,899,181,735 99
Corresponding Statement December 31, 1879.....		2,011,798,504 87
Reduction of Debt in 1880.....		\$112,616,768 88
Reduction of Debt in 1879.....		16,849,606 22
Reduction of Debt in 1878.....		17,307,331 70
Reduction of Debt in 1877.....		46,965,799 02
Reduction of Debt in 1876.....		26,910,953 46
Reduction of Debt in 1875.....		22,766,106 75
Reduction of Debt in 1874.....		16,717,024 15
Reduction of Debt in 1873.....		2,937,011 95
Reduction of Debt in 1872.....		81,586,073 02
Reduction of Debt in 1871.....		88,229,382 61
Total Reduction of Debt in ten years.....		\$432,886,057 76
Bonds issued in aid of Railroads not included in the above Statement. For these Bonds the Government holds a lien upon the various lines.		
Issued to Union Pacific Railroad.....	\$27,236,512 00	
Issued to Central Pacific Railroad.....	25,885,120 00	
Issued to Kansas Pacific Railroad.....	6,303,000 00	
Issued to Western Pacific Railroad.....	1,970,560 00	
Issued to Sioux City and Pacific Railroad.....	1,628,320 00	
Issued to Central Branch Union Pacific Railroad.....	1,600,000 00	
		\$64,623,512 00
Balance of Interest paid by the United States.....	\$32,882,214 95	
Interest accrued but not due.....	1,938,705 36	
		\$34,820,920 31
Total Principal and Interest.....		\$99,444,432 31
Corresponding Statement December 31, 1879.....		96,754,193 75
Increase of Interest Balance during 1880.....		\$2,690,238 56

STATEMENT

Showing the Valuations of Property for purposes of Taxation in the State of Illinois from 1839 to 1880 inclusive; also the Public Debt of the State for the same time.

1880	573,404,141	165,846,994	47,365,259	786,616 394	-----

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of Real Estate and Personal Property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law; since 1868 the valuations are as equalized. The total valuations in each of the several years are entirely correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, but especially that of Railroad Property.

The State Debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869. In 1869 and 1870, as it stood December 1. In 1871, as it stood December 31. From 1872 to 1879, as it stood December 1. At the close of 1880 the Debt had either been all paid, or called in to be paid by funds in the Treasury applicable to that purpose.

STATEMENT

Showing the Valuations of Real Estate and Personal Property in the City of Chicago for purposes of taxation. Also the Amount of Taxes levied, and the Public Debt of the City in each year since 1849.

NOTE. — From 1851 to 1862, inclusive, a Lamp Tax of half a mill to two mills was levied on certain portions of the city, and is included in the above Total Tax. The city debt, as noted, represents it as it stood on February 10 in 1852 to 1854, inclusive; on February 1 in 1855 to 1861, inclusive; on April 1 in 1862 to 1874, inclusive; and on December 31 since 1874. Valuations for 1875 to 1880 inclusive are by the County assessment, as equalized by the State Board of Equalization.

STATEMENT

Showing the number of Acres under Cultivation in Wheat, Corn and Oats in the State of Illinois in 1880, in each County, together with the product of each in bushels, as estimated by the State Department of Agriculture.

The establishments in the last item for Chicago embrace the following:

Three each of Agricultural Implements, Corks, Gold and Silver Leaf, Lasts, Leather Belting, Medicine and Jewelry Cases, Mill Picks, Smelting and Refining Ores, and Steam Pumps.

Two each of Bags, Broom Handles, Chains, Envelopes, Files, Fire Apparatus, Gas and Coke, Horse Shoe Nails, Ivory Turning, Lightning Rods, Lime and Cement, Maps, Map and Picture Mounting, Matches, Metal Spinning, Perforated Metals, Portrait Copying, Scrapers and Ditchers, and Steam Gauges and Valves. *One* each of Baggage Checks, Beehives, Bellows, Bessemer Steel Goods, Boiler Purge, Boiler and Pipe Covering, Candles, Cattle Food, Carpet and Cloth Cleaning, Cigar Coloring, Cloth Shoes, Coaline, Coin Wrappers, Cotton Mill, Decorating China, Fire Works, Flour Paste, Gas Retorts and Fire Brick, Glass Blowing, Glazing, Hardwood Staining, Hat Tools, Horse Collar Blocks, Iron Mantels and Grates, Kit Cutter, Ladders, Leather Tags, Macaroni and Vermicelli, Malt Kiln Floors and Brewers' Supplies, Masons' Elevators, Match Safes, Mats and Passe-partouts, Metal Screws, Mortar, Painters' Specialties, Parchment, Peanut Bakery, Polishing Powder and Bath Brick, Pottery, Refrigerators, Repairing Furnaces, Ropes, Sausage, Shoddy, Silk Goods, Soda Water Apparatus, Steam Lapidary, Stone Jacks, Street Lamps, Stove Boards, Tile Flooring, Toys, Wagon Jacks, Washing Machines, Weather Strips, Weavers' Reeds, Wood Pumps, Wooden Shoes, Wool Pulling, Wool Scouring, Worsted and Woolen Goods, and Zephyr Worsted Goods.

In the division of business or its assignment as above to the city or the several towns it may be proper to say that all the Slaughtering and Meat Packing business, all the Railroad Construction and Repair Shops, and all the Brick Making, are classed as city business, for the reason that they are all such in reality, though partly conducted just beyond the city limits, and to divide them would only result in confusion. All other branches of business are located in the towns within which they are conducted, as far as known, although several of the reports were obtained from offices in the city, and it may be that a few others classed as city business are located just beyond the city limits.

Since June 1 several large establishments have commenced business, so that for the calendar year of 1880 a similar compilation would show a considerable increase in nearly all items.

CANAL STATISTICS—(OFFICIAL).

1848 to 1880 inclusive.

The following Statement shows the Expenses of Repairs, Renewals, etc., also the Amount of Tolls collected, together with the dates of the Opening and Closing of the Illinois and Michigan Canal.

SUMMER PACKING.

The following Statement shows the number of Hogs packed from March 1 to November 1 in each of the years named, in the Western States, and also the number packed in Chicago. This packing is largely conducted with the aid of ice. The meats being mostly dry salted, and handled with care, are esteemed as desirable as those packed in the colder weather.

Years.	No. OF HOGS PACKED.		Years.	No. OF HOGS PACKED.	
	In the West.	In Chicago.		In the West.	In Chicago.
1873.....	1,062,916	306,536	1877.....	2,543,120	1,508,026

REGULATIONS GOVERNING THE INSPECTION OF FLOUR

IN CHICAGO,

ADOPTED BY THE BOARD OF TRADE.

In force December 31, 1880.

GRADES.

REGULATION 1. The Board of Directors shall establish and fix the standards for two grades of "Super Flour" and two or more grades of "Extra" Flour, to be designated respectively "Fine," "Superfine," "Extra" and "Double Extra." Samples of these standards shall be furnished to the Flour Inspectors for their government in inspecting, and also to the Secretary of the Association, to be kept by him for comparison.

INSPECTION COMMITTEE.

REG. 2. The Board of Directors shall appoint a standing committee on Flour Inspection, to consist of five members, at least three of whom shall be dealers in Flour. Said Committee shall have and exercise a general control of the Inspection of Flour.

FLOUR TO INSPECT AS SOUND.

REG. 3. Flour classed as sound shall be strictly sound, free from any and every defect or fault causing either smell or taste.

FLOUR TO INSPECT AS UNSOUND.

REG. 4. Flour (below the grade of "Superfine") made from wheat containing noxious seeds or screenings, or having an unpleasant smell or taste, which in the judgment of the Inspector would largely disappear in the baking, shall be classed as "off." All Flour not sound, whether the unsoundness be derived from the condition of the grain from which it was manufactured, or has originated in the Flour, shall be classed as unsound.

INSPECTION.

REG. 5. The Inspectors of Flour shall inspect "Extra" by grade only. "Fine," "Superfine," or "Double Extra" may be inspected by grade or by sample, as requested by the party ordering the inspection. Samples of all Flour inspected shall be furnished by the Inspectors to the party ordering the inspection. In case of doubt on the part of the Inspector, as to whether Flour is fully up to the standards established, if the Flour is substantially equal to the standard in color, body and strength, it shall receive the benefit of the doubt and be passed as of the higher grade.

BRANDING.

REG. 6. The Inspector shall brand all Flour, except that below the standard of "Fine," that has been inspected, as "sound," and "full weight," and none other. For branding, stencils shall be used which shall state the month in which the Flour was inspected, and on "Extra" shall also state the grade of the Flour.

CERTIFICATES OF INSPECTION.

REG. 7. Certificates of Inspection shall be issued only as "Extra" on all Flour so graded. Certificates may be issued by grade or by sample, as desired by the party ordering the inspection, on any Flour inspecting "Double Extra," "Superfine," "Fine" or below "Fine"; but when issued by grade the Flour shall be branded as of the grade. No certificate shall be issued for part of any lot of Flour inspected, without the consent of both the buyer and seller. When Flour is unsound, the Inspectors shall state in their certificates the character of the unsoundness, as *musty*, *hard sour*, *soft sour*, or *slightly unsound* (the latter qualification of the unsoundness being intended to indicate that the Flour will probably work sound for immediate use, and is but slightly depreciated in value), the number of packages of each description, and also, when practicable, the number of packages that may be so stained or out of condition as to depreciate the market value of the Flour. In case the Flour has been overhauled and cleaned on account of having been wet, and the inspectors shall deem such overhauling in any way damaging to the market value of the Flour, they shall note on their certificates "wet and cleaned." If Flour is in flat-hooped barrels the Inspectors shall so note in their certificates.

REINSPECTION.

REG. 8. When on reinspection Flour is found to be sour, it shall be reweighed, but no charge shall be made by the Inspectors for weighing, if it proves to be short in weight.

WEIGHTS.

REG. 9. A barrel of Flour shall be deemed to weigh one hundred and ninety-six (196) pounds net, and no allowance shall be made for any overweight. In case of short weights, the buyer shall be allowed for the shortage at the rate he pays and one-half a cent per pound on the same for freight, and in addition five (5) cents per barrel for the expense of refilling. Buyers of sacked Flour shall be allowed reclamation for short weights only. The inspectors shall satisfy themselves in regard to weights, and in case they deem it necessary to strip some of the Flour, they shall strip five (5) barrels from each lot, and shall be entitled to fifteen (15) cents for each barrel so stripped, if it proves to be short in weight; the charge for stripping to be paid by the seller.

INSPECTOR'S FEES.

REG. 10. The fee for inspecting and branding Flour shall be two (2) cents per barrel, and for Flour in sacks one (1) cent per sack.

IRREGULAR FLOUR.

REG. 11. When Flour inspects "Double Extra," "Superfine," "Fine" or below "Fine," or when the Inspectors are working to a sample, in case the Flour does not run uniform the Inspectors shall note that fact on their certificates, together with the number of packages of each quality, samples of which shall be submitted to the party ordering the inspection, for examination.

FURTHER DUTIES OF INSPECTORS.

REG. 12. It shall be the duty of the Inspectors to furnish the standard samples of Flour to which they are working to the Committee on Flour Inspection, for the use of the Secretary of the Association, monthly, or oftener if directed, and also to keep in their office, for the accommodation of the trade, the official standard samples of "Double Extra," "Extra," "Superfine" and "Fine" Flour in current use in New York, Boston, Philadelphia, Baltimore, St. Louis and Montreal, said samples to be furnished by the Secretary of the Association. It shall be the further duty of the Inspector to ascertain the stock of Flour in Chicago on the first day of each month, and to report the same to the Secretary of the Association, to be by him posted upon the bulletin of the Exchange-room. In taking the account of stock there shall be included only the amount in the several freight depots, the public warehouses and the place of storage by receivers, and in the city mills. The Inspectors shall also furnish to the Secretary of the Association, monthly, a statement of the number of barrels and the number of sacks of Flour inspected by them during the preceding month, designating the amount inspected of each grade, and the amount inspected by sample.

LIABILITIES OF INSPECTORS.

REG. 13. The Inspectors shall only be liable for damages for any discrepancy between the Flour for which a certificate is issued and the sample they retain of the Flour so inspected, unless the buyer furnishes them a sample to inspect by, or the standard sample is used. In all claims for errors of inspection by grade, the final test shall be by the standard samples in the care of the Secretary of the Association.

The Committee on Flour Inspection recommend to shippers of Flour in sacks, to be inspected in this market, that in closing the sack the mouth edge of the sack be turned in without rolling, and sewed with a single seam. They further recommend that in loading cars the sacks be either placed on end with the mouth up (leaving the space between the doors clear), or tiered on both sides of the car with the mouth toward a passage left between the tiers. Unless this last recommendation be complied with the Inspector may be compelled to charge for the labor necessary to put the Flour in proper position for inspecting.

Committee on Flour Inspection for 1881.—S. A. SCRIBNER, Chairman, E. NELSON BLAKE, WM. H. CROCKER, EDMUND NORTON, JOHN B. PHELPS.

Inspector of Flour.—R. W. RATHBORNE.

RULES GOVERNING THE INSPECTION OF GRAIN,

IN THE CITY OF CHICAGO,

In force December 31, 1880.

The following are the rules adopted by the Board of Railroad and Warehouse Commissioners, establishing a standard of grades for the inspection of grain, under the authority of the State of Illinois:

WINTER WHEAT.

No. 1 WHITE WINTER WHEAT shall be pure White Winter Wheat, sound, plump, and well cleaned.

No. 2 WHITE WINTER WHEAT shall be White Winter Wheat, sound and reasonably pure and reasonably clean.

No. 1 AMBER WHEAT shall be pure Amber Winter Wheat, sound, plump, and well cleaned.

No. 1 LONG RED WINTER WHEAT shall be pure Red Winter Wheat, of the long berried varieties; sound, plump, and well cleaned.

No. 2 LONG RED WINTER WHEAT shall be of the same varieties as No. 1, sound and reasonably clean.

No. 1 RED WINTER WHEAT shall be pure Red Winter Wheat, of both light and dark colors of the shorter berried varieties; sound, plump, and well cleaned.

No. 2 RED WINTER WHEAT shall be Red Winter Wheat, of both light and dark colors; sound and reasonably clean.

No. 2 WINTER WHEAT shall include all mixtures of the different varieties of Winter Wheat, and shall be sound, reasonably clean, and of good milling quality.

No. 3 WINTER WHEAT shall include Winter Wheat not clean and plump enough for No. 2, but weighing not less than 54 pounds to the measured bushel.

REJECTED WINTER WHEAT shall include Winter Wheat damp, musty, or from any cause so badly damaged as to render it unfit for No. 3.

SPRING WHEAT.

No. 1 HARD SPRING WHEAT shall be sound, plump, and well cleaned.

No. 2 HARD SPRING WHEAT shall be sound, reasonably clean, and of good milling quality.

No. 1 SPRING WHEAT shall be sound, plump, and well cleaned.

No. 2 SPRING WHEAT shall be sound, reasonably clean, and of good milling quality.

No. 3 SPRING WHEAT shall include all inferior, shrunken or dirty Spring Wheat, weighing not less than 53 pounds to the measured bushel.

REJECTED SPRING WHEAT shall include Spring Wheat damp, musty, grown, badly bleached, or for any other cause which renders it unfit for No. 3.

In case of the mixture of Spring Wheat and Winter Wheat, if equal or superior to

No. 2 it shall be graded as Mixed Wheat, according to the quality thereof, and if inferior to No. 2 it shall be graded as Spring Wheat, according to the quality thereof.

BLACK SEA AND FLINTY PRIFE WHEAT shall in no case be inspected higher than No. 2, and Rice Wheat no higher than Rejected.

CORN.

No. 1 YELLOW CORN shall be yellow, sound, dry, plump, and well cleaned.

No. 1 WHITE CORN shall be white, sound, dry, plump, and well cleaned.

No. 1 CORN shall be sound, dry, plump, and well cleaned, white and yellow, unmixed with red.

HIGH MIXED CORN shall be three-quarters yellow, and equal to No. 2 in condition and quality.

No. 2 CORN shall be dry, reasonably clean, but not plump enough for No. 1.

No. 2 KILN-DRIED CORN shall be sound, plump, and well cleaned, white or yellow. All Kiln-Dried Corn not good enough for No. 2 Kiln-Dried shall be graded as Rejected Kiln-Dried Corn.

NEW HIGH-MIXED CORN shall be three-fourths yellow of any age, reasonably dry and reasonably clean, but not sufficiently dry for High-Mixed or No. 2.

NEW MIXED CORN may be less than three-fourths yellow, of any age, and shall be reasonably dry and reasonably clean, but not sufficiently dry for No. 2.

REJECTED—All damp, dirty, or otherwise badly damaged Corn shall be graded as Rejected.

OATS.

No. 1 OATS shall be white, sound, clean, and reasonably free from other grain.

No. 2 WHITE OATS shall be three-quarters white, and equal to No. 2 in all other respects.

No. 2 OATS shall be sound, reasonably clean, and reasonably free from other grain.

REJECTED—All Oats damp, unsound, dirty, or for any other cause unfit for No. 2, shall be graded as Rejected.

RYE.

No. 1 RYE shall be sound, plump, and well cleaned.

No. 2 RYE shall be sound, reasonably clean, and reasonably free from other grain.

REJECTED—All Rye damp, musty, dirty, or from any cause unfit for No. 2, shall be graded as Rejected.

BARLEY.

No. 1 BARLEY shall be plump, bright, clean, and free from other grain.

No. 2 BARLEY shall be sound, of healthy color (bright or but slightly stained), not plump enough for No. 1, reasonably clean, and reasonably free from other grain.

No. 3 BARLEY shall include slightly shrunk and otherwise slightly damaged Barley, not good enough for No. 2.

No. 4 BARLEY shall include all Barley fit for malting purposes, not good enough for No. 3.

No. 5 BARLEY shall include all Barley which is badly damaged, or for any cause unfit for malting purposes, except, that Barley which has been chemically treated shall not be graded at all.

The word "new" shall be inserted in each certificate of inspection of a newly harvested crop of Oats, until the 15th day of August, of Rye until the 1st day of September, of Wheat until the 1st day of November, and of Barley until the 1st day of May, of each year. This change shall be construed as establishing a new grade for the time specified, to conform in every particular to the existing grades of grain, excepting the distinctions "new" and "old."

All grain that is warm, or that is in a heated condition, or is otherwise unfit for warehousing, shall not be graded.

All Inspectors shall make their reasons for grading grain, when necessary, full known by notations on their books. The weight alone shall not determine the grade.

Each Inspector is required to ascertain the weight per measured bushel of each lot of Wheat inspected by him, and note the same in his book.

Any person who shall assume to act as an Inspector of Grain, who has not first been so appointed and sworn, shall be held to be an impostor, and shall be punished by a fine of not less than \$50 nor more than \$100 for each and every attempt to so inspect grain, to be recovered before a justice of the peace.

Any duly authorized Inspector of Grain who shall be guilty of neglect of duty, or who shall knowingly or carelessly inspect or grade any grain improperly, or who shall accept any money or other consideration, directly or indirectly, for any neglect of duty, or the improper performance of any duty, as Inspector of Grain, and any person who shall improperly influence any Inspector of Grain in the performance of his duties as such Inspector, shall be deemed guilty of a misdemeanor, and, on conviction, shall be fined in a sum of not less than \$100 nor more than \$1,000 in the discretion of the court, or shall be imprisoned in the county jail no less than three nor more than twelve months, or both, in the discretion of the court.

All Assistant Inspectors, when upon duty, shall wear a badge furnished by the Chief Inspector, plainly designating the position of each in the department.

The said Chief Inspector, and all persons inspecting grain under his directions, shall in no case make the grade of grain above that of the poorest quality found in any lot of grain, when it has evidently been mixed or doctored for the purpose of deception.

All persons employed in the inspection of grain shall report all attempts to defraud the system of grain inspection as established by law. They shall also report to the said Chief Inspector, in writing, all instances where warehousemen deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt. They shall also report all attempts of receivers or shippers of grain to instruct or in any way influence the action or opinion of the Inspector, and the Chief Inspector shall report all such cases to the Commissioners.

Railroad and Warehouse Commissioners of Illinois.—WM. M. SMITH, J. H. OBERLY, GEORGE M. BOGUE.

Chief Inspector of Grain.—JOHN P. REYNOLDS.

Committee of Appeals on Grain Inspections.—GEORGE FIELD, JOHN WALKER, C. A. PHELPS.

RATES OF INSPECTION.

GRAIN (STATE INSPECTION).

For inspecting grain from cars, per car.....	\$0 25
For inspecting grain from wagons, per load	10
For inspecting grain from canal-boats, per M bushels	25
For inspecting grain to vessels, per M bushels.....	30
For inspecting grain to cars in bulk, per car	20
For inspecting grain to teams, per car.....	30
For inspecting grain to teams, per load.....	10
For inspecting grain in sacks, per bushel	00¼

FLOUR.

For inspecting flour, per barrel.....	02
For inspecting flour, per sack	01

PROVISIONS.

Sampling, including repacking and coopering.

For inspecting beef and pork—for the first five barrels, per barrel.....	80
For inspecting beef and pork—for each additional barrel	25
For inspecting S. P. meats—for the first five tierces, per tierce.....	1 00
For inspecting S. P. meats—for each additional tierce	25
For inspecting boxed meats—for the first five boxes per box.....	1 00
For inspecting boxed meats—for each additional box.....	50

In case the whole of a lot is inspected, not including labor and coopering.

For inspecting beef and pork, per barrel.....	10
For inspecting S. P. meats—in lots of fifty tierces or more, per tierce	12½
For inspecting S. P. meats—in lots of one hundred tierces or more, per tierce	10
For inspecting bulk or boxed meats in car load lots or more, per M pounds..	15
For inspecting lard—in lots of one hundred tierces or more, per tierce	04
For inspecting tallow and grease, per tierce.....	05
For stripping lard or grease at regular warehouses—not less than five packages, per package	50

FLAX SEED.

For inspecting flax seed, in bulk from cars, per car.....	50
For inspecting flax seed in bags, including opening and refastening, per car..	1 00
For inspecting flax seed at warehouses or mills, per car	50
For inspecting flax seed from warehouses to vessels, per M bushels.	50

HIGHWINES.

For inspecting highwines, per barrel.....	10
---	----

GRAIN BY SAMPLE.

For inspecting grain by sample, per car	30
For inspecting grain from warehouse, per M bushels.....	25

COMMISSIONS.

Schedule of Commissions adopted by the Board of Trade as proper charges for selling Grain and other property.

For selling car-load lots of Wheat, Corn and Rye in store, free on board cars or vessels, on track, delivered, or to be shipped from any other point.....per bushel	\$0 01
For selling car-load lots of Oats in store.....	" 00½
For selling car-load lots of Oats free on board cars or vessels, on track, delivered, or to be shipped from any other point.....per bushel	01
For selling car-load lots of Barley in store.....	" 01
For selling car-load lots of Barley free on board cars or vessels, on track, delivered, or to be shipped from any other point.....per bushel	01½
For selling canal-boat loads of Grain in store, afloat or free on board vessels	" 00½
For selling Seeds in any quantity.....	2 per cent
For selling Dressed Hogs in car-load lots.....	1½ "
For selling Dressed Hogs in less than car-load lots.....	1½ @ 2½ "
For selling Bran, Shorts and Millstuffs.....	\$3 50 per car
For selling Corn Meal and Mixed Feed.....	\$5 00 "
For selling Broom Corn.....	00¼ per lb

In addition to the above there shall be charged such legitimate expenses as are necessarily incurred in caring for the property, and guarding the interests of both consignor and consignee. Lower rates than the above (not less than one half a cent per bushel) may be agreed upon for the sale of Corn and Oats in cases where no advances are made, and higher rates are allowed by agreement in special cases.

WEIGHING CHARGES.

Lard and Grease, not including breaking down and repiling, in lots of one hundred packages or more, per package.....	\$0 04
Tallow, in half hogsheads or smaller packages, per package.....	05
Tallow, in hogsheads, per package.....	10
Bulk Meats, not including labor, per M pounds.....	10
Grain, by cargo, from elevator to vessels, per M bushels.....	20
Grain, from canal-boats, per boat load.....	1 00
Handled at the expense of the weigher.	
Grain, Seed, Beans, Potatoes and similar articles, in bags, per bag.....	02
Sugar, in hogsheads and boxes, per 100 pounds.....	02
Salt, in sacks, per 100 pounds.....	02
Sugar, Salt, Dried Fruit and similar articles, in barrels, per barrel.....	04
Butter and Lard, in kegs, per package.....	04
Wool, in lots of less than 50 bales, per bale.....	08
Wool, in lots of 50 bales or more, per bale.....	07
Broom Corn, in lots of less than 50 bales, per bale.....	07
Broom Corn, in lots of 50 bales or more, per bale.....	06
Dressed Hogs, each.....	02
Pig Iron and Lead, per 100 pounds.....	02
Coal and Salt, per ton.....	05

LONDON AND LIVERPOOL

Weekly Range of Markets for American Wheat and Corn in London and Liverpool during United Kingdom, as reported by Mr. J. E. Beerbohm, of

Week Ending		LONDON.											
		Cargoes off Coast.								To Arrive.			
		California Wheat, per quarter.		Red Winter Wheat, per quarter.		Fair to Good Spring Wheat, per quarter.		Good Mixed Corn, per quarter.		California Wheat just shipped.		California Wheat, nearly due.

FURTHER DETAILS OF DIRECT EXPORTS.

Included in the report of Exports on the previous page are shipments by the Merchants' Despatch Transportation Company amounting to 257,631 tons, forwarded by the Michigan Central and Lake Shore & Michigan Southern Railways and by Lake, and exported via Boston and New York. Lines running over the Grand Trunk Railway of Canada took 142,762 tons from Chicago, partly by the Michigan Central and partly by the Chicago & Grand Trunk Railway; these shipments were divided between Montreal and Boston. Of the Black and Red Star Lines' shipments via Pittsburgh, Fort Wayne & Chicago Railway (123,328 tons), 66,081 tons went via New York, 54,870 via Philadelphia and 2,377 via Baltimore. The Hoosac Tunnel Line, via Boston, took 22,743 tons, about two-thirds of which went by Lake. The National Line, via Pittsburgh, Cincinnati & St. Louis Railway, carried 22,354 tons. Shipments via the Baltimore & Ohio Railroad were made by the company direct. The Erie & Pacific Despatch, Canada Southern Line, Erie & North Shore Line, South Shore Line, and Empire Line, all by rail from Chicago, forwarded considerable quantities, as did also the Union Steamboat Company and the Anchor Line by Lake. Through bills of lading were largely issued by the agencies of the Anchor, Inman, American, and other lines of ocean steamers, and to the representatives of all these lines acknowledgments are made for courtesies in furnishing information necessary to the compilation of this report.

FREIGHT RATES FROM CHICAGO TO EUROPE

On Through Bills of Lading during 1880.

(Rail to the Seaboard and thence by Steamer.)

The following are reported as the current freight rates, including all charges between points of shipment and destination except ocean insurance, from Chicago to the points named.

Months.	Grain to Liverpool. Average rate per 100 lbs.	SACKED FLOUR, per 100 lbs.		PROVISIONS, per 100 lbs.			
		To Liverpool.	To Glasgow.	To Liverpool.	To Glasgow.	To Antwerp.	To Bremen.
January	51½	53 @55	60 @64	58 @67½	73 @76	75 @78½	81@83

November	54 28-100	49 @60	52 @64½	55½@85	62 @79½	76 @79½	82@85
December	52 03-100	57½@63	60 @64½	70 @81½	72 @85	79½@85	82@87

Rates have been very irregular by different routes, in many instances a material difference prevailing on the same day, reference being had to the surplus or scarcity of steamer room at the several seaboard ports. Usually rates have ruled the lowest via Boston or Montreal.

Showing the Quantities and Values of Articles of Domestic Produce Exported from Chicago to Canada, by Lake, during the year 1880.

ALL-RAIL THROUGH BUSINESS.

The following Statement shows the amount of Flour and Grain received at Chicago during 1880 by western railways and delivered to connecting lines without passing through a Chicago elevator. These amounts are all included in the general statements of receipts and shipments published herewith, except shipments originating in Milwaukee; those are deducted from the receipts and shipments of Chicago as shown by the general statements, but are included in this.

Received by Chicago & Northwestern Railway.

Total capacity			19,405,000

PUBLISHED RATES OF STORAGE ON GRAIN FOR 1881.

<i>On Grain Received in Bulk.</i>	In cents per bush.
If inspected in good condition when received —	
For the first ten days, or part thereof	1½
For each additional ten days, or part thereof	½
If condemned as unmerchantable when received —	
For the first ten days, or part thereof	2
For each additional five days, or part thereof	½

From November 15 to April 15 the above rates will be charged on Grain in good condition until four (4) cents per bushel has accrued, after which no additional storage will be charged during the time named so long as the Grain remains in good condition.

(Furnished by the State Inspection Department.)

In addition to the above, there was inspected in canal boats 4,750 bushels of No. 1 Corn; 3,729.453 bushels of No. 2 Corn; 1,100.200 bushels of High Mixed Corn; 23,800 bushels of New High Mixed Corn; 94,100 bushels of New Mixed Corn; 203,150 bushels of Rejected Corn; 24,700 bushels of No Grade Corn; 17,300 bushels of No. 2 White Oats; 339.900 bushels of No. 2 Oats; 85,000 bushels of Rejected Oats; 11,520 bushels of No. 2 Rye; 9,825 bushels of Rejected Rye, and 325 bushels of No. 5 Barley. Also in vessels arrived by lake, 6,548 bushels of Winter Wheat; 477,088 bushels of Spring Wheat, and 89,016 bushels of Barley.

Statement showing Receipts of several Articles in 1880.

PRICES OF HIGHWINES.

The following shows the current prices or assumed value of Highwines for each week during 1880. In reality very little, if any Highwines, as such, are now sold in the Chicago market. Prices of the various classes of the Distilled Spirits, including Alcohol, are, however, made upon the basis of a valuation for Highwines, and during the year quotations for all forms of Spirits not rectified have been based upon a valuation for Highwines as indicated below.

Freight classified by the Railroads as seventh class was taken at the following rates by the above lines:

To Buffalo at 15¢ per 100 lbs, except in June, when it was taken as low as 12¢ cents.
 To New York at 25¢ to May 1, 25¢ to May 3 to 22, 25¢ to May 24 to October 16, and 27¢ to 30 for the remainder of the season.
 To Boston at 40 cents to May 1, 37 cents May 3 to 22, and 35 cents the remainder of the season.
 To Philadelphia at 48 cents, and to Baltimore at 47 cents the whole season.

ALL-RAIL RATES EASTWARD FROM CHICAGO

During the year 1880.

NOTE.—Bulk Meats were charged 5 cents per 100 lbs. over current rates for Boxed Meats to the seaboard cities. Tariff Rates have been more generally observed throughout the year than for many years past, if not than ever before. On the opening of the Chicago & Grand Trunk Line to Chicago in February and for some time thereafter, until arrangements were made for an allowance to that line of a percentage of Chicago business through the Joint Executive Committee of Railway Managers, its rates were understood to be variable and somewhat lower than the regular rates by other lines.

Receipts of various Articles by Rail, not elsewhere noted in detail, as reported by the several Railroad Companies, for the year 1880.
